

Egypt's Military Coup on 3 July, 2013

The situation in Egypt July 8-2013:

After the revolution of Jan 25, 2011 and after the direct elections which witnessed by the whole world of transparency and fairness got president Mohamed Morsy on the majority, after that we as Egyptian people remarked the following:

It is well known in the democracy around the world that any ruling party has the right to choose the cabinet and take necessary procedures to proof its capability as a good ruling party, but all opposition's parties refuse all presidential decrees from day one.

-The Egyptian media (TV channels, newspapers ... etc) focus on the mistakes of president Morsy and avoiding any good achievements over the past year.

- Over the past year, the media was supporting all protestors' conferences and talk show and focus on any little mistake of the ruling party to introduce it as a huge and fatal mistake in front of Egyptian people, they broke the level of fairness and neutral, we found they are following the same way of the deposed Mubarak regime to make people hates the ruling party.

- Over the past year, president Morsy didn't arrest any protestor, even when protestors use Molotov and bulldozer to destroy the presidential palace, he gave orders to the police and army not to shot anyone and leave the situation to normal law, because he was respecting human rights, as he used to suffer from arrest and

deformation all over his life because he was belonging to brotherhood which was prohibited by the military regime since 1952 and since then all ruling parties was working hard to deforming the brotherhood image all over the world and saying they are terrorists, he was trying hard to explain the right image of the brotherhood in front of the world.

- After the demonstrations of June 30, 2013 which a lot of Egyptian people shown the well prepared frustration over the past year, they left Tahrir square, but when the military coup found that the demonstration ended they make a statement next day 1st of July on 04:00 PM Cairo time to re-gather the demonstrations again and to make the social cover of the military coup.

Now, after the military coup on July 3, 2013;

- Many TV and Satellite channels blackout immediately after the military coup statement on July 3rd evening Cairo time, in order to stop any opposition voice.

- Many Journalists arrested.

- Many Politicians and around 300 people arrested.

- The military coupe trying its best to publish the demonstrations of the military coupe supports and trying its best to hide the demonstration of the military coup opposition.

- Many opponents of the military coup arrested.

- Many newspapers stopped.

- Many media correspondences were prohibited to cover any repression and murder done by the military coup.

- The military coup is working hard now to revive again the age

of oppression and repression against the Egyptian freedom and democracy.

- The strangest status “all problems suddenly solved” gasoline, diesel, electricity, security ... etc” after the success of military coup.

- During the past year, President Morsy was stopping the oppression of the national security whom lived over many years serving the ruling parties in watching and oppressing Egyptian people, as he was suffering from the same attitude all over his life; but the national security was working against the president himself over the past year as they thought there is no future power for them by such attitude of president Morsi; they used to work over years to convince the world that the brotherhood is bad people and after the Jan. 25 revolution they found that Egyptian people elected the brotherhood.

- During the past year, president Morsy was opening the freedom gate for all Egyptian (protestors and loyal) as he was suffering from the blackout and falsification.

- On Friday 5th of July they prohibited a very bid demonstration from Morsy supporters to arrive to Tahrir square when Tahrir square was empty, and ordered many parties to call for demonstration on July 7th to support the military coup.

- Today on July 8, 2013, 04:00 AM Cairo time, 51 peaceful demonstrators killed by the military armed force and police (8 women, 7 children, 36 old men and youth) and the military coup make a false video for the national TV’s to say that they attack on the Republic Guard.

- The military coup didn't mention the videos of 136 cameras fixed on the republic guard building, and use some videos which we can't trust.

- The military said that it was strange there is children in the demonstration, and we are all knows very well it was sit-in since five days from 3rd of July till 8th of July morning from families.

- The military coup saying that the demonstrators started with the attack, is it logically that they killing all demonstrators because individual attack, is it logically that over five days of peaceful demonstrations in front of republic guard without any image of any weapon and suddenly the demonstrators attack the republic guard !

Today, July 8, 2013, I'm as Egyptian looking to the future with sorrow, depressed and frustration, any protestor will be arrested and may be killed, and media will cover back any illegal action and trying to show it as the protestor mistake.
