255 Human Rights Organizations and Networks Urge States Parties to the Convention of Preventing the Crime of Genocide to Request the International Court of Justice to Issue an Urgent Order Demanding that the Occupying State Stop its Criminal Activities in the Gaza Strip

Israel, the occupying and apartheid state, has continued to commit international crimes against the Palestinian people. In every aggression launched by the occupying entity, with the facilitation and complicity of the leaders of the global imperialist center, led by the leaders of the United States and the United Kingdom, the occupying state - its leaders, soldiers, and settlers - do not hesitate to commit war crimes and crimes against humanity against the Palestinian people and the residents of the Gaza Strip. From October 7th, the occupation entity launches, with the complicity and facilitation of the leaders of a number of Western countries, a war that may rise to be described as genocide. The Baptist Hospital crime is only one of its carefully planned and systematic episodes.

As electricity and fuel cut continues, there is an imminent danger that hospitals will stop working, especially intensive care rooms, oxygen generation, and dialysis, and that ambulances and civil defense vehicles will stop providing any services. Since 42% of Gaza's housing has been completely demolished or partially damaged, and there are one million six hundred thousand displaced people who have been forcibly removed from their homes, any rain that falls this season will lead to additional disasters, forming an advanced episode of genocide.

In view of the ongoing war crimes, aggression, and genocide against the Palestinian population of the Gaza Strip, and in view of the failure of all efforts made for years to exploit the prosecution mechanism established by the Rome Statute that established the International Criminal Court, for many reasons that cannot be

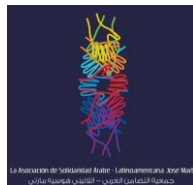

mentioned here, we call for the use of legal capabilities available under the **Convention on the Prevention and Punishment of the Crime of Genocide of 1948**, and the practical and judicial practice related to it. We note that the occupying state and a significant number of Arab countries are parties to the Convention, and did not submit any reservations regarding the provision contained in Article (9) of the Convention; under which the States Parties acknowledge the jurisdiction of the International Court of Justice, the right of any party to the conflicting States Parties to refer disputes that may arise between the parties regarding the interpretation, application, or implementation of the Convention, including disputes related to the responsibility of a State for genocide, or for conspiracy or incitement to commit it. Since the criminal acts committed by the occupying entity against the Palestinian people in the Gaza Strip involve intentionally subjecting the residents of the Gaza Strip to living conditions that are intended to physically destroy the population of the Palestinian Strip, in whole or in part, in a systematic manner that expresses a general pattern, **we demand the following:**

First: That any of the state's parties to the aforementioned agreement, especially the Arab and Islamic states parties, take the initiative to request the International Court of Justice to issue an urgent order requiring the occupation and apartheid entity to stop its criminal activities in the Gaza Strip.

Second: File a lawsuit against the occupying entity and any country that contributed, supported, or colluded with it to commit genocide against the Palestinian people in the Gaza Strip, to hold it internationally and legally responsible for those actions.

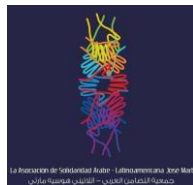

Third: That countries take the initiative to take countermeasures against the occupying entity and those who colluded with it or facilitated the commission of genocide crimes in the Gaza Strip, including an economic boycott of the entity, severing diplomatic relations with it, and not recognizing any realistic situations that may arise from these criminal acts.
